PO FOLKS ALMINAK

"WE'RE PO BUT WE'RE PROUD"

PO FOLKS FACTS

- Last year, Seth Aiken set a world's chicken eatin' record at the PO FOLKS in Paint Rock, Texas. He ate 7 drumsticks, 12 breasts, 11 thighs and 22 wings at one settin. Sinct then he ain't done nothin' but cackle and eat a little cracked corn.

  Mrs. Thomas said she reckoned as how she ought ta take him ta the doctor but she needs the aigs.
- If all the politishuns in the country was laid end ta' end thar'd be alot of lyers.
- Awbry Kershaw from Oolitic, Indiana was 114 year old on the ocasion of his last birthday, in June. When we asked Mister Kershaw how he'd lived so long, he replid, "Ain't none of your dang bizness". Ornery old cuss, ain't he?
- Durin the war between the States, Buladeen, Tenn. was the site whar 10 brave kuragous Southern soldiers sneaked up on a hunert & sevinty two trespassin' Yankee blue bellies and got the drop on 'em without firin a shot. The oficer in charge of them yankees sed that they was on their way to Miami Beach fer a rest, so our boys a-rested 'em.

PERDICTIN THE WETHER

How ta tell if hits rainin - Let in the dog. If'n he's wet, it likely is.

You kin tell cold wether is a comin' when the pond freezes over.

Usually, the second snow of the year don't fall before the first.

You know a dry spell is a comin' when yore corn dies.

It will probly rain a fore the sun sets if'n you take a house bath.

Thar's more on the back, ifin you can stand it...

MO PO FOLKS FACTS

- In some parts of the United States, people hadn't never drank out of a fruit jar. We are doin' our best to edukate 'em but we need yore help.

Most folks don't realize the historakal signifacance of the fruit jar.

A way back a fore the War Between the States, some enjineers was hired ta lay out some boundries. Two of the most important fellers doin' this was Mr. Dixon and Mr. Mason. They went acrost the kuntry from west to east a layin their line. Stuck out in the woods they got awful thirsty sometimes. They was a drankin out of two old jelly glasses thet was jest alike. Now Mr. Dixon was a real persnikity feller and was careful about not drinkin after anybody else. So they was always a arguing bout which glass was which, an not spendin much time a workin.

One day their straw boss had enuff. He called em ta talk. He said ''If'n you fellers don't quit worryin' about these jelly glasses we won't never git finished with this line before the war starts. Now Dixey, (He called Dixon Dixey cause it made his eyes bulge) you'n Mason throw them jelly glasses away. Here's a jar fer Mason an a cup fer you! Now git gone 'n git done. Well shore enuff that did the trick. Afore long ol Mason and Dixon had their line drawn and the job done.

An if wasn't fer thet straw boss comin' up with Mason's jar an Dixie's cup so's we could tell the north from the south, we mite be a eating cream of wheat instead of grits.
